

Letter of Recommendation for David James

To Whom It May Concern:

This letter is to recommend David James. I worked with David James for 2 years, and served as his direct supervisor.

David demonstrated remarkable organization, skill and efficiency as a programmer for our company. David takes programming very seriously and produced quality code consistently for us.

David demonstrated strong work ethic during the time that I've known him, and always met or exceeded expectations. David was willing to take a project head on, and run with it.

I highly recommend David, and enjoyed very much getting to know him.

Sincerely,

Josh King
